

PRESS RELEASE

REFUso/ among the top 100 most innovative mid-sized companies in Germany

“Top 100” award for inventive talent, creativity and vision

Metzingen/Germany, July 1, 2011 – REFUso/ GmbH, one of the leading manufacturers of solar inverters, has been awarded the seal of quality “Top 100” for its inventive talent and innovation fostering culture. REFUso/ is one of hundred mid-sized companies, which innovative drive has been acknowledged as especially positive by the Vienna University of Economics and Business Administration. The seal of quality was awarded by the German politician and business guru Lothar Späth on June 30, 2011.

REFUso/ is known for continuously innovating its solar inverters, which are industry leading in terms of technology and efficiency, communication and monitoring as well as easy installation and scalability. At this year’s largest photovoltaic trade show, Intersolar Europe, REFUso/ showcased among others the solar inverters REFUso/ 333K and REFUso/ 008K as well as the webbased monitoring portal REFUlog with smartphone app. These three products are exemplary for the company’s innovation strategy. New products have 60 per cent revenue and profit share. This was recognized with the granting of the seal of quality by the judging panel.

„From the very start we wanted to establish the company on the worldwide market with innovative products. Hence two facts were important right from the start: a corporate culture, which allows for creative freedom and innovations and a joint and common passion for our products and industry from all our employees“, says Norbert Frings, CEO of REFUso/. „It is a great pleasure for us to be acknowledged as a team for this. “

About REFUso/ GmbH

With over 45 years of experience in power electronics, REFUso/ is one of the top three providers of solar inverters globally and one of the fastest growing companies in this field. REFUso/’s efficient and award-winning solar inverters help customers maximise the yield of their photovoltaic plants, whether for small roof-top installations or large-scale solar plants. REFUso/ is headquartered in Metzingen, Germany and has further international offices in Europe, Korea, China, India and the U.S. as well as sales and service partners in key strategic photovoltaic markets around the world.
